

Provincial Support Programme (PSP)

Response to the queries about RFP for DPR of SWM, Suryodaya published on
29th August 2025.

SN	Queries/Questions	Responses
1	What, should be the maximum no of Landfill Site Designed by the firm?	1. 2 Nos of landfill site design
2	What is the number of Certificates of Experiences of the Koshi Province in Infrastructure Design Project (Municipal Road Project 10Km)	2. At least 10KM Municipal Road design.
3	What is the Maximum no of JV allowed for the project?	3. Since RFP does not mention the JV provision, it is not allowed.
4	What is the Financial Cost of the Project?	4. Since the selection method of RFP is in QCBS. The financial cost estimate will not be disclosed.
5	In evaluation criteria, the evaluation criteria upto mechanical/automobile engineer is given. Does it mean the remaining experts are treated as non key experts and no points will be given for them during evaluation?	5. True, CVs are required to check the minimum required competencies.
6	In bid data sheet 3.6 Evaluation of financial proposal there is a criteria that More than budget shall be disqualified. So, can you give information about budget? Is it fixed price contract or not? and also if required there is provision to add experts and does it affect the financial later or not?	6. The RFP selection criteria is QCBS. Hence, the evaluation of the financial proposal shall be accordingly.
7	In evaluation criteria there is experience required for municipal level road projects. Does this mean only municipal road experience is counted or does provincial or national roads also be counted.?	7. Municipal road or governing specifications matching to municipal road can be counted.
8	Experience of Similar Programs/Projects The criteria mention experience in design of landfill sites (e.g., at least two). We would like to confirm whether <i>sub-projects</i> carried out under larger programs (such as Integrated Urban Development Projects, Industrial Village/Industrial District Projects, etc.), where the scope included preparation of DPRs for Solid Waste Management or related infrastructure, will be considered valid and countable as relevant experience.	8. Yes, it will be considered to the extent of confirming 3Rs (Reduce, Reuse & Recycle) of the waste management approach.
9	Experience in Koshi Province The evaluation criteria specify experience in Infrastructure Design Projects within Koshi Province, particularly municipal level road DPRs of at least 10 km length. We kindly request clarification on whether other types of infrastructure design projects (such as bridges, municipal buildings,	9. Refer to response no. 2.

	drainage systems, or planning-related assignments) implemented within Koshi Province will also be considered under this requirement.	
10	How many borehole tests?:	10. Sufficient sample collection to meet the standard of required test procedures irrespective of no of holes and depth. At least two boreholes to within 30 m of ground surface.
11	Do we need to assist in evaluation of construction as well or only up to tender documents?	11. The service provider has to prepare and submit the Tender Documents ready to be floated as outlined in the TOR.
12	Is there bridge as well?	12. There is no bridge
